Professional Summary

Driven Software Engineer with over 5 years of experience specializing in **scalable backend systems, microservices, and AI-driven applications**. Expert in **Python (FastAPI, Django, Flask)** and **Node.js**, with a deep focus on designing distributed, event-driven architectures using **Kafka, Redis, and Celery**. Proven track record of deploying production-grade AI solutions, including chatbots and computer vision platforms.

Professional Experience

Tax Star L.L.C-FZ

Back End Engineer

Meydan Hotel, Dubai, UAE

Jan 2024 – Present

- **Architected** and implemented scalable, fault-tolerant microservices systems for high-throughput operations.
- Designed low-latency **RESTful APIs** using Python (Flask, FastAPI) ensuring high availability.
- Built event-driven architectures with **Kafka** and engineered distributed pipelines using **Redis/Celery**.
- Developed a backend-driven automation bot, significantly improving operational efficiency.

Tech Stack: Python, Flask, FastAPI, Next.js, Kafka, Redis, Celery, Docker, RabbitMQ, Ubuntu.

Altersense Limited

Full Stack Engineer

Dhaka, Bangladesh

Nov 2021 – Dec 2023

- Designed backend systems for computer vision products, including **Face and Activity Recognition**.
- Built high-performance APIs and microservices using Python (Django, FastAPI) and **NestJS**.
- Integrated and optimized ML models within backend services, improving performance and reliability.
- Managed **PostgreSQL** databases and containerized services using **Docker**.

Tech Stack: Python, Django, FastAPI, NestJS, React.js, Svelte, PostgreSQL, Docker, Ubuntu.

Expert Consortium Ltd

Back End Developer

Dhaka, Bangladesh

Apr 2021 – Nov 2021

- Built AI-powered chatbots and computer vision-based IP camera management systems.
- Developed UI controllers for robotics projects and contributed to **ERP** application development.
- Implemented **RESTful and GraphQL** APIs for efficient system integration.

Tech Stack: Python, Django, Flask, FastAPI, GraphQL, React.js, PostgreSQL.

Technical Skills

Languages: Python, JavaScript, TypeScript, Dart

Backend: FastAPI, Django, Flask, Node.js (NestJS, Express), REST, GraphQL

Frontend: React.js, Next.js, Svelte, Jinja2

Cloud/DevOps: Docker (Swarm), Git, CI/CD, Ubuntu Server, MQTT, Kafka, Redis, Celery

Education

Southeast University

Bachelor of Science in Computer Science and Engineering (*Dropped out*)

Dhaka, Bangladesh

2023 – 2025

Key Industrial Projects

Taxstar – Corporate Tax: Developed UAE corporate tax calculation workflows including financial statement production, multi-client management, and approval pipelines using NestJS.

Taxstar – E-Invoicing (UAE): Built Peppol-based e-invoice integration with PINT AE mapping, invoice validation, staging, and error management for UAE MoF compliance as a pre-approved ASP; leveraged Apache Kafka for event-driven invoice processing and Temporal.io for reliable workflow orchestration.

Helios – AlterSense: Developed core data ingestion modules in C++ using concurrency techniques (mutexes, condition variables, thread pools) for thread-safe camera stream processing; implemented message broker integration with Apache Kafka for seamless IoT data processing and scalable streaming across a distributed system.

ERP System: Designed architecture for dynamic user profiles using NestJS and Svelte.

Vision AI: Developed Car Number Plate Detection and Face Recognition services using FastAPI and OpenCV.

Chatbots: Built an ML-based chatbot using Rasa, Django, and React.js.

Extracurricular Activities

YouTube: Programming Content Creator: "**Code With Rafiq**" (<https://www.youtube.com/c/codewithrafiq>) (technical tutorials and insights).
